

# THE CHAMPION CHRONICLE

VOLUME 12

CHAMPION, (Alberta) THURSDAY MAR. 12, 1931

NUMBER 42

## Reid Hill Society Plays Here Friday

On Friday evening in the Community Hall the Reid Hill Dramatic Society will present the comedy, "Mrs. Temple's Telegram." Those who had the good fortune to hear this play at its first presentation at Reid Hill are enthusiastic in regard to the well balanced cast and the way in which the play was staged, which evidenced careful preparation in every detail as well as splendid histrionic ability on the part of the actors. That residents of Champion will turn out in unusually large numbers to greet the presentation of the play here is already assured by tickets already disposed of. The Ladies' Aid of Blusson United church are sponsoring the presentation in Champion, and a crowded hall is confidently anticipated.

Remember! Community Hall dance Friday, March 20.

## Cold Weather Revives Curling

Peter Holm quit thinking about farming on Monday night, and on Tuesday morning was getting ready for curling again, or at least making an effort to stir some life into what they call a curling club here. His attempt was partly successful in that he found everybody quite willing to permit him to work all he liked at the rink, and some assurance of help to curl after he got the ice ready.

## Dance on Friday In Community Hall

A Community Hall dance will be held on Friday, March 20th. The Len Davis orchestra will furnish the music for the occasion, and as the proceeds are all for the hall fund it is hoped there will be a general turnout.

## F. J. Clapp Rink Wins Burns Cup

Champion was represented at the Little Bow bonspiel, held at Vulcan on Monday, by two rinks, viz.: F. J. Clapp, skip; R. D. Farrie, J. Taylor and U. S. Alexander; J. S. Collins, skip; G. A. Orr, Rev. Peter Dawson and J. M. Pharis. The Clapp rink lost to Gow of Barons in first event in a very close game, and won the Burns' Cup by defeating U. Messinger's Carmanagay rink in the finals. The Collins quartette failed to get into the jewellery class, but had two close games. The brewery cup went to Barons, the McMillan rink defeating the rink of Vulcan in the final. The visitors from here speak in the highest terms of the quality of the ice and the entertainment provided by the Vulcan club.

## W. I. Hears Timely Address

"Why Worry?" was the theme of Mrs. Martin's address to the Women's Institute at their regular meeting held at the home of Mrs. Alexander on Tuesday afternoon. In order to relax the two difficulties to be overcome are hurry and worry and as a means to this, good music and physical culture were recommended by the speaker. Cultivate a sense of humor said Mrs. Martin and above all be governed by the three great essentials of life—faith, hope and love.

Mrs. O. Harper is outlining the work connected with the community fair—what is expected out that as the fair was a benefit to all and the community exhibits help to make the fair, each one should take an interest and co-operate to keep up the honors already won by Champion. Much keener competition is expected this year. The following committees were appointed.

Seed—Mesdames, Ulrich, W. A. Summers and Mr. F. Clever. Grains and Grasses—Mesdames H. Smith, Caldwell and Goetz.

Decorating—Mesdames Moffat, McIntyre and Clever.

Vegetables—Mesdames M. Sison, Millin, Dow, Boner, Bastin, Stephenson, Chamberlain and I. Otto. Meats J. N. Beaubier, A. Baker, Moffatt, B. Woodhull and McIntyre.

For further information apply to Mrs. O. Harper. April 18th is the date set for a ten to be held in the United church and for the sale of articles from the flour sack contest.

On April 10th Miss A. Conroy public health nurse will be in Champion and will lecture on "Immigration." This lecture is free to all, and the public are cordially invited to attend. A vote of thanks was tendered to Mr. Gill, representing the hall committee for the reasonable rental of the hall for the valentine dance.

In spite of the cold day and prevalence of colds there was a good attendance at this meeting, seventeen members and four visitors enjoying the delicious tea served by Mrs. Alexander and Mrs. Stephenson.

The Stange family have moved to the vicinity of Stavely where they will farm in future and R. O. Crane will again occupy his farm adjoining the town to the southwest. Mrs. Stange and family will have the best wishes of many Champion friends in their new location.

## Hall Anniversary Draws Big Crowd

While a blustery night and uncertain rain acted as much or less of a handicap to the attendance at the second anniversary of the opening of the Champion Community Hall, over 300 people managed to be present for a really enjoyable evening. A good program had been arranged by G. M. Campbell, who also acted as a chairman. This was followed by supper in which everybody naturally took part without any urging except the tempting array of viands served under the supervision of A. W. Jopling, who is making rapid progress into the hall of fame as chef extraordinary where a crowd is to be properly fed. Dancing followed to the always excellent music supplied by the Len Davis Orchestra, only the near approach of morning seeing the end.

Following is the programme: 1. Community Singing. 2. Chairman's Address. G. M. Campbell.

3. Violin Solo..... Helen Higgins. 4. Selection..... "Madam Queen Blues" Len Davis Orchestra.

5. Solo..... Miss Hartwig. 6. Piano Solo..... Max Caldwell.

7. Duet..... Hawaiian Guitar. 8. Solo..... Amos McLeod.

9. Bill Billy Orchestra. 10. Violin Solo..... Russian Lullaby Martie Lay.

11. Solo..... Miss McLean. 12. High School Skit, "The Porter and the Salesman," H. Taylor, P. Bastin and D. Campbell.

13. Violin Duet, Misses Rhodes and Lucia. 14. Violin Solo..... Bert McLennan.

15. Len Davis and His Orchestra. 16. Solo..... G. M. Campbell.

17. Banjo Solo..... Geo. Robinson. 18. Solo..... Miss Hartwig.

The different numbers were greeted enthusiastically by the audience and any attempt to praise these individually would involve practically a repetition of the programme. Both local and outside performers were excellent entertainers, and the assistance received from the orchestra, both collectively and individually was greatly appreciated. G. M. Campbell was chairman for the evening.

## H. S. Qualifies As "60 Minute Team"

Champion and Vulcan high school hockey teams clashed at Vulcan on Wednesday night, when the local team emerged winners by the score of 7-1, using but six players in the encounter, while four subs. relieved the Vulcan boys regularly. The game was fast and interesting throughout, the winners using combination tactics effectively. A second game has been arranged for Saturday night at Vulcan, and doubtless a much larger number of spectators will be on hand from Champion. The players were: Goal, H. Taylor, defence, E. Harper and Bastin; forwards, A. Latiff, Don Campbell and McCullough. Spare R. Latiff.

The auction sale of Albert Hackett's household effects was well attended on Saturday and bidding was fairly brisk. Naturally, as nearly always happens at this kind of sale, big prices were realized in some instances, while many excellent articles went for considerably less than their value.

With the collapse of the cool streak preparations for seeding are definitely in order, according to local weather prophets.

## Will Present Play During April

The Ladies' Aid met at the home of Mrs. R. Lucia on Thursday, March 11th, with a good attendance in spite of the fact that the members had been struggling with the effects of the dust storm. With Mrs. R. I. Baker in charge the Aid is putting on a play at the end of April. An Easter tea and bake sale will also be held with Mrs. Wise and Mrs. Cowell in charge.

## W. I. Conference At Lethbridge

The Southern District Conference of the Alberta Women's Institutes meets at Lethbridge on Wednesday and Thursday, March 18th and 19th. Mrs. F. C. Alcock, district director, will preside and Mrs. D. Chamberlain will be the delegate from Champion.

## Dies Suddenly At Edmonton

Mr. and Mrs. D. D. Farmer returned from Edmonton on Wednesday, where they had been called by the sudden death of Mr. Farmer's brother, T. E. Farmer, of Edmonton, which occurred on Friday. The deceased was in his 18th year, and while he had been ailing some what a fatal ending was entirely unexpected. The deceased has been travelling for some years for the Great West Saddlery Co., with Edmonton as headquarters, and was widely known in this territory. He leaves a widow and four children to mourn his loss. The funeral took place at Edmonton on Monday.

Born—in the General hospital, Calgary, on Tuesday, March 10th, to Mr. and Mrs. Harry Lusk (formerly Miss Genevieve Harper), a son.

## Wood's Home Extends Thanks

Geo. L. Dupue, Esq., President of Local Committee, Champion, Alberta, Dear Mr. Dupue:

I have been instructed by the Board of Trustees of the Wood's Christian Home to express to you our deep appreciation for the splendid donation of \$105.00 which we received the other day, also for the further interest your farmers are taking in our work by sending in flour.

Such gifts are most acceptable and gives us renewed courage to go on with the work of caring for the little folks, and through no fault of their own, find the old world a pretty hard place.

Convey my personal thanks to all those who assisted in the canvass. I will write to each one as per the list you enclosed and again thanking everyone, we are,

Yours sincerely,  
Wood's Christian Home  
D. B. Robertson  
Manager.

## Will Remain Here This Summer

J. M. Howerton and family returned from Hythe, Alberta, where they have spent the winter, on Monday March 2, just in time to enjoy the big dust storm, which they found quite impressive after living some time where high winds are noticeable by their absence. Mr. Howerton intends remaining here during the coming summer, as present conditions are not favorable for expanding operations on his Peace River holdings.

## Card of Thanks

The directors of the Community Hall wish to thank all the organizations, artists, and everyone who assisted to make the anniversary night such a wonderful success.

NOTES AND COMMENT.

Alcohol is being experimented with to replace gasoline partly as fuel for engines, but the difficulty so far is that alcohol cannot be produced at much less than the cost of gasoline, while it has but half the power.

Just what has this new Champion council got against the owners of dogs. This policy of increased licenses would have been dangerous to advance before the election. An effort should be made to present the councillors with a couple of dogs apiece at the first opportunity.

The U.F.A. members of the legislature insist on maintaining a town planning department at a cost of \$13,000 a year, while the members of the party attending the convention in Calgary planned to get rid of the towns altogether along with the middlemen. What will these farmers do next?

The M.P. for Macleod, Mr. Cooke, has discovered that the gold standard is the cause of the present financial difficulties. Premier Brownlee wants a pegged price for wheat and cheaper money at the banks. Major Strange says improve the quality of your wheat and cut the cost of production. Premier Bennett, however, is going to bring back prosperity by increasing the tariff.

There are some thousands of other remedies advanced, naturally including the 100 per pool, but none of them seem to touch the spot without too long a wait. What is wanted is a scheme that will put money in everyone's pockets right now, not after the funerals of about 10 per cent of the population are held.

The maintaining of gravel roads is becoming a serious thing as the mileage of such roads increases. It will be but a short time until more money will be required for maintenance than is expended annually on construction of new roads. The solution of this problem is supposed to lie in securing more permanent construction than is provided by gravel alone. Oil products have already been applied to portions of the gravel roads with very satisfactory results as far as the travelling public is concerned, the absence of dust making a wonderful difference. But whether this will prove a solution where cost is concerned is yet problematic. It is hoped some solution for the situation will be found which will permit the maintenance of good roads without prohibitive cost.

The danger of rushing in to other lines of farming, to meet low prices in any one is illustrated by the butter situation. Without any apparent additions to the number of cattle butter is being produced in sufficient quantity to supply the home

market without importations, which were quite heavy a year ago. Should there be any general movement to increase production in dairy products it is quite evident that selling prices would make the venture unremunerative. Surplus products must be eliminated before prices can rise to any appreciable extent, and the creation of a surplus in another product will not relieve the embarrassed ones.

The government is receiving commendation and condemnation for its action in banning certain exports from Russia, but there is room for belief that the people at large will be in the commending class. Whether convict labor is being employed or whether their goods are more or less the product of slavery as charged, the very fact that there is an open effort to undersell other nations can be considered nothing less than dumping, and everyone has been more or less agreed that goods sold for less than cost at their point of origin should be prevented from flooding regular markets to the distress of producers for these markets. There is no reason why Canada should help to foster the five-year plan of Russia to her own detriment.

The very fact that import duties on wheat to the extent of nearly a dollar a bushel on the part of European nations is necessary in order to protect their wheat growers is sufficient evidence that their effort to grow their own wheat is a failure from an economical point of view, and only the tariff craze that seems to have spread all over the world permits such schemes to continue. Wheat production should not be lowered where the best wheat in the world is grown on the cheapest land, where under ordinary conditions it is profitable, but on high priced land where wheat shows little profit to the grower even when prices are normal. Government interference may prolong such a ridiculous situation but it is bound to right itself in the end.

The statement by the provincial treasurer that to maintain automobile licenses at the old figure would result in many cars being tied up, and that by lowering the license fees five dollars per car more gas would be consumed, partly making up the loss of revenue, would indicate that license fees were placed as high as the traffic could possibly stand, or else the minister was simply trying to excuse the government for reducing a tax, something they had never done before.

Practically the first winter experienced since last October arrived here the first of the week. While snow was almost entirely lacking there was just enough low temperature to make things chilly for people who had been enjoying summer weather all the time when there should have been winter, and a considerable amount of luxurious shivering was done. The coal business, which had been languishing somewhat, looked up suddenly, as the continuous balmy weather had resulted in the coal piles being allowed to shrink to too small dimensions, as heat was one of the things which did not seem to be altogether necessary. Winter clothing naturally became desirable, even if the weather was no colder than an ordinary nice winter's day, and everything looked and felt like the week before Christmas instead of the beginning of seeding time. However, everyone seemed to enjoy the change.

Hon. Frank Oliver is of the opinion that it will be found much easier to slow up the production of wheat, and reduce immigration, than it will be to resume production when it is required, and thinks operations should go on as usual, letting the over-production right itself.

General News Items

Canada has some three billions of dollars invested in transportation systems, including railway and steamship lines, another two billions in motor highways, and a billion in hotels.

Canada's average yield in potatoes last year was 142 bushels per acre, the total yield being nearly 82,000,000 bushels.

Fruit and vegetable canning factories in Canada now total about 300, with an annual production valued at about \$40,000,000.

Decision to form a central council of two representatives from each Prairie Province to assist in handling and marketing cattle, was made by directors of the Western stock-growers' association and representatives of the British Columbia beef-growers' and the Saskatchewan stock-growers' association at a recent series of meetings held in Calgary. Several lines of activity, including the compiling of accurate statistics regarding potential marketings and exploration of existing and new avenues of outlet are suggested as work of the newly-formed council.

5,000 Facts About Canada

"The Dominion in a Nutshell" is the arresting sub-title of the widely known annual, "5000 facts about Canada," compiled by Frank Veigh, the recognized authority on the Dominion through his writings and lectures. This 96 page booklet, now in its 28th year, has become indispensable to thousands of Canadians, while it is in increasing demand from other countries desiring to learn of Canadian conditions. 50 chapters, ranging alphabetically from "Agriculture" to the "West" and "Yukon" tell the story of the country's progress in a series of brief crisp sentences easy to locate and assimilate—a story that is both cheering and stimulating. It is extensively used by governments, corporations, colleges and schools, and also as a means of "selling Canada" to people in other lands. It is therefore a most valuable advertisement of the Dominion. Most news dealers carry it, or it may be had at 50 cents a copy, from the Canadian Facts Publishing Co., 568 Huron St., Toronto 5.

# Churchill Townsite Opening May Be Necessarily Delayed Until August Of This Year

Not until August—if at all this season—will Churchill, Manitoba's new bay report, be opened to the public. Officials of the Manitoba Government, masters of the townsite, are seeking to surmount problems which threaten to delay the town opening until August, a time so late it may be deemed better to wait until next season.

Channelling hundreds ask permission to "get in on the ground floor" this summer at the rock-pit terminal of the Dominion Government's Hudson's Bay Railway. Business men, adventurers, pioneers who lead irresistibly toward the north—these are the folk who are eager to be residents at Churchill when the Britain-bound freighters first stream within-bound across the Bay.

Opening of the town to the public will terminate the "engineers' paradise" which has existed since old Mike O'Shea's extra gang laid first steel into Churchill in the howling March gale of two years ago. Entry into Churchill has been allowed only on special permit, and workers engaged in track-laying, engine building and clearing construction have been under strict surveillance of their employers.

Beyond the establishment of a trio of banks and the operation of a canvas-walled movie show blown down by the Bay gates, commerce has made virtually no appearance at the West's northern harbor. Food is served at the camp mess, sleeping quarters are provided, and work is there to be done only where necessities may be obtained by purchase, so that most workmen find a season at Churchill with a real "stake."

Promise of export of shipping at Churchill this fall, if only for a few weeks in late September and October, has occasioned a new rush of applications to set up postrooms, barber shops, restaurants and general stores at Churchill. The Dominion Government has pledged its effort to ship 750,000 barrels of wheat—three good-sized heat cargoes—this fall. Plans from Saskatchewan still ask shipments of as much as 5,000,000 barrels of wheat.

In planning a decision on the townsite opening, the Manitoba Government is understood to be most concerned with the question of whether adequate preparations for an ingress of major proportions could be made by the beginning of August. It is believed wiser to permit settlement at a later date this season, lest new residents be brought unprepared for the rigors of the sub-Arctic winter. Postponement until next spring may be considered advisable.

Five protection regulations rank among the most important matters to be settled in connection with the water supply, especially if the water supply is to be limited; yet officials realize that too drastic regulations will meet with pronounced opposition from the rough-and-ready pioneer type certain to predominate among early Churchill residents.

Indications are that, regardless of at least semi-trepreneur, buildings will be demanded within the limits of a certain portion of the townsite proper, which will be located on the rocky point forming the south side of the Churchill river's mouth. Possibilities that squatters may set up their two or three board "shacks" beyond the restricted area are foreseen, regretted—but not immediately disposed of.

Present plans of the Dominion Government are to bring water from the Rosselle Lake area, three miles south of the townsite, by means of a raised aqueduct in

mutated against wacky cash.

Engineers who seek even greater assurance of permanent adequacy, favor piping water from above tide-water on Churchill River, about seven miles upstream from the town. Technical opinion differs as to which is the better plan.

Use of pumping equipment in connection with pipes from above tide-water, some engineers claim, would reduce unlimited water supply and reduce fire hazard. Under this system, lines might be laid in the river bed, out of the reach of frost, virtually an ever-present threat in the Churchill area.

Drainage of the townsite, to be laid out within a few hundred yards of the towering 2,500,000-gallon grain elevator now under construction, is looked on at least partially as a problem. Water, seeping down from the ground surface, troubles the present foot level and is unable to penetrate further. It gathers along this level and if a rise in the frozen surface is encountered, the water comes to the surface, resulting in a permanently marshy area.

Beyond these major problems, the Manitoba Government must yet locate its main sewage plant, mark out streets and avenues for the port north of the townsite, designate the location of the more important buildings to be located, and so on. Finally, there are many questions reached on most of the questions, but the uncertainty still remains as to whether Churchill can be built to its first citizens in time to settle them comfortably for the cold weather.

## Puts In Eight-Hour Day

Frenchwoman 101 Years Old Works As Stillbinder in Bookbinding.

In these times of general business depression and unemployment the great fear of Helene Bonnet, who works as a stillbinder in a bookbinding shop in Paris, is that she might lose her job. She knows how hard it is to find work when you reach "a certain age."

It happens that Helene Bonnet has reached "a certain age." As a matter of fact, she is 101 years old, which does not prevent her from putting in an eight-hour day with the best of them. But she would never consent to tell her age. Neighbors and fellow workers imagined that she still entertained matrimonial hopes. They were hopelessly wrong. Helene feared the loss of her job.

## Put To New Use

Playing Cards Are Now Being Made Of Aluminum

Aluminum is being used more and more for all sorts of purposes. It is being used for cables that carry electricity across country from power stations, in place of copper, and its latest use is in the making of playing cards.

These have the usual colored faces and backs and look and feel like ordinary cards, except that they are a little heavier. In the open air they will not blow away as those made of cardboard, and if they become soiled they can easily be washed, which is a great advantage.

It is interesting to remember that aluminum, although one of the commonest of all metals, being found in clay, was only discovered so recently as 1825 by Frederick Wohler, a German.

## Potato Harvest Of 1930

Average Yield Shown At 85.0 Cwt. Per Acre Of Land

The preliminary estimate of the total yield of potatoes in Canada, in 1930, is 45,160,000 cwt. from 574,500 acres, or 85.0 cwt. per acre, as compared with 39,800,000 cwt. from 465,727 acres, or 78.4 cwt. per acre in 1929, and 48,060,980 cwt. from 565,707 acres, or 85.0 cwt. per acre, the average for the five years 1924-28. By provinces, the average yields in 1930, per acre are, in order, as follows: New Brunswick, 116.7; Nova Scotia, 112.0; Prince Edward Island, 105.0; British Columbia, 92.0; Alberta, 86.7; Manitoba, 85.7; Ontario, 78.4; Quebec, 78.0; Saskatchewan, 63.4.

The United States supplies the world with practically all its rubber erasers and rubber bands.

The gorilla is a more delicate and sober animal than the playful chimpanzee.

## TWO EXPRESS VETERANS

Here they are, "Sandy" and "Earl," old friends of 16 years' standing, although Earl has had 18 years and Sandy Campbell, 39 years with the Canadian Pacific Express Company. His years of steady service in packing up and delivering goods for the company has given Earl such a knowledge of his route, which covers the area of downtown Toronto around Bay and Adelaide Streets, that he trots up and down the streets without any help. Sandy gives him no orders for he knows his route as well as his driver. Earl is here shown merely asking Sandy to carry on with his next delivery.

## Cooks Travel With Him

The Maharajah Jagannath Prasad Das, took his own cooks and cooking utensils with him when he went to Berlin. His cooks were allocated a special part of the kitchens in the Central Hotel. The cooks are said to have brought with them 100 different varieties of spices, roots and herbs, most of which are unknown in Europe.

## Scenes Predicts War

War will hit the world again this year, with the Communists' being power in Russia, Spain having another republican uprising, and France seeing a special part of the kitchens in the Central Hotel. The cooks are said to have brought with them 100 different varieties of spices, roots and herbs, most of which are unknown in Europe.

Ice cream, packed in dry ice, recently made a 12-day journey from Seattle to Berlin.

## FASHION

No. 926—Sports Frock. This style is designed in sizes 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

No. 208—Pepin Model. This style is designed in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

No. 187—Smart Sophistication. This style is designed in sizes 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

No. 139—Sport Neckline. This style is designed in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 5

## Don't Let Constipation Lead You Into Serious Illness

Serious rectal troubles, piles, paralysis, hemorrhoids, are frequently the result of using cheap cathartics.

ENO is pleasant, gentle, safe and sure.

A daily glass of ENO in a glass of water every morning, tones up and sweetens the entire system.

### CHAPTER XII—Continued

The color pounded in Gay's cheeks. All her sympathy for James Halliday rushed over her as she said, and her voice colder than Nick had ever heard it: "It was no joke, Nick. Her husband was in that back."

"How—horrible!"

Nick raised himself on one elbow, then sank back limply.

"I hope she'll never know. It would kill her, because—well, she was laughing when we drew up beside him. I remember motioning her to stop, for the window of the back was open, and I saw a hand reach out and pull down the shade. Gee! what a situation! You—don't suppose he'll tell her, do you?"

"Probably not. He keeps his feelings pretty much to himself, I think; but if he cared for his mother (and he did, Nick, I could see that), it must have been something of a blow."

"It was ghastly. Why did he tell you?"

"I wanted me to know that you were safe at that time anyway. He said he saw you, and I unfortunately asked where."

"Poor fellow! Do you know, Gay, I think they're unhappy. I've thought so all along. At first I imagined their trouble was due to his healthy cynicism, but—"

"He's not always cynical," broke in Gay defensively. "There wasn't a trace of it that night when she got going. If they're not happy the fault isn't all his, Nick. Julie says—"

"Gay, how can you listen to Julie's chatter?"

"I didn't. It stirred through me when I was thinking about you. No one can stop Julie when she gets going; and I was too unhappy just then to care about the ethics of the case. Let's forget it, Nick. I don't want to think about that time, ever again. It was a nightmare."

"For a while there was silence, then Nick said thoughtfully: "I could stand all of it, Gay, if we hadn't run down that child."

He shuddered at the memory, and she said: "Don't think about it, dear."

"How mean I help thinking? It was a little girl, Gay, hardly more than a baby, and I've always wanted a little girl. She was chasing a kitten."

## READ OF A CASE LIKE HER OWN

### Decided to take Lydia E. Pinkham's Vegetable Compound

Moncton, New Brunswick—"Before my last baby was born I was very nervous and dizzy. I was an advertisement for an advertisement through the paper of a woman who had been like me so I bought a bottle of Lydia E. Pinkham's Vegetable Compound. I took three bottles and I am cured. I feel safe through the critical time. I have three children to care for and I feel well and strong. I have told two other women about your medicine." Mrs. G. A. Anderson, 211 Albert Street, Moncton, New Brunswick.

W. N. U. 1850

good nurse. I had to go through some of the worst of the antiseptics; but anyway, I've got her away from Mrs. Williams, which is the main thing. The child's afraid of her, I don't believe she's been well treated."

"I'm not surprised. The few words I had with the woman showed me that I'd have to have a deal of time under her care. But—won't it make a lot of trouble for you, Halliday? I suppose there are good places where you could send her."

"No place where she'd have a sleeping room and a nurse to help her. I want her to be happy. It seems terrible for a child not to be happy, doesn't it?—and I feel, somehow, responsible for her, you know."

"Well, that's mighty nice of you," Nick began, when Sony interrupted: "Well I mean mud pies for her. Want one?"

He lifted the pie which was given his father an "appetite," and offered it to the caller.

Halliday took it rather awkwardly, and said to Nick: "Am I supposed to eat the pie?"

"Just a petting end," explained Sony kindly, while Nick smiled at him at Halliday's ignorance of child psychology.

"With my fingers!" asked Halliday, smiling himself, as he warmed to the task.

"Daddy says 'em sometimes, like kiddy,'" said the little boy, "but Mummy says it's not nice manners."

"Just a petting end," explained Sony kindly, while Nick smiled at him at Halliday's ignorance of child psychology.

"With my fingers!" asked Halliday, smiling himself, as he warmed to the task.

"Daddy says 'em sometimes, like kiddy,'" said the little boy, "but Mummy says it's not nice manners."

"Just a petting end," explained Sony kindly, while Nick smiled at him at Halliday's ignorance of child psychology.

"With my fingers!" asked Halliday, smiling himself, as he warmed to the task.

"Just a petting end," explained Sony kindly, while Nick smiled at him at Halliday's ignorance of child psychology.

## Genuine Gratitude

### Compels Tribute.

Mr. Victor Hills, of Thornton Heath, writes: "For many years I have suffered with that distressing complaint—constipation, and its attendant effects of sick-headaches and indigestion. It was a real distressing time for me when a friend recommended me a treatment of Carter's Little Liver Pills, and I can honestly say that results have been truly marvellous. I now enjoy good health and feel that life is worth living. I can eat and sleep as well as I ever did. I am a grateful subscriber to Carter's Little Liver Pills. All druggists sell them for five red pills."

## Periodic Health Examination

Annual Physical Examinations May Add Years To Your Life.  
(By John Burke Ingram.)

I sometimes think that pious people are often guilty of the greatest impiety.

So many of us, as a homely philosopher once pointed out, are given to blaming our troubles upon Providence when actually these troubles are caused by our own carelessness or willfulness. So often after a promising career has been cut short by death do we hear many people say: "It was the Will of God."

Undoubtedly resignation to divine will is a virtue that every truly religious person tries to cultivate, but there is a saying to the effect that Providence helps him who helps himself.

And if I were preaching a sermon to-day instead of writing a health article, that would be my text.

All this is a premise conceived in some bitterness. It is a fact that conservative, sound health authorities believe that the Canadian out of every "three" dies ahead of his time.

Now, if a man were to wishfully shut his eyes and walk over a precipice we would regard him as being sacrilegious if he blamed his mishap upon Providence when by sheer neglect.

Today when medical science is tremendously better equipped than ever in the history of the world to prevent disease, the average man and woman neglects his own health.

Other a few silly people still represent the activities of health departments as being those activities tend toward the lengthening of their own days.

My purpose today is to tell you of a simple and inexpensive form of health insurance. Go to your doctor once a year. Better go on your birthday.

It will help you to realize the value of your life. If you are feeling perfectly well, ask your doctor to examine you thoroughly. If he finds traces of conditions which if left alone may lead to physical disorders, follow his advice.

I'm not just making up this bit of advice for you. There is a very impressive body of favourable opinion behind it. The Canadian Government and the Canadian Medical Association regard it as so important that they have combined to prepare a book which they have sent to every physician in Canada. This book gives detailed scientifically prepared directions as to how such an examination should be conducted. Your doctor, it says, will take about a half an hour to make this examination and he will use up to 18 instruments in making it. He will make about 50 tests. Now just in case this might seem a lot of bother and red tape, let me tell you something else. Several leading Canadian Life Insurance Companies have used this examination to save them money. They are providing each year physical examinations "free" for the holders of valuable policies, simply with the idea of keeping these policies from lapsing as long as possible. Obviously the longer a policy holder lives the more money the life insurance companies make. Surely if these leading business organizations find the periodic health examination scheme a sound investment, you too should find it a sound investment. In fact, you will find it an even better investment than that, for while it saves them only dollars and cents, it may save you days, months, and even years of life.

Toronto has a hospital for ailing children.

## THE ADVENTURES OF CAPTAIN JIMMY and his Dog SCOTTIE

WHAT CAME BEFORE—Captain Jimmy and his dog Scottie are the only ones who have seen the great white bear. The rest of the world was to grow in, and of course, I had to start straight out.

I wonder if you have ever craved into a little white bear. Jimmy, or Scottie, have you ever craved into a little white bear. Jimmy, or Scottie, have you ever craved into a little white bear.

But I was so shaken up and bruised that I could scarcely move. Scottie—the poor fellow—peeped out of the cockpit like a shot out of a gun. Bailing through the air he went, and landed in the clump of grass, where he rolled over, and of course, I had to start straight out.

I wonder if you have ever craved into a little white bear. Jimmy, or Scottie, have you ever craved into a little white bear. Jimmy, or Scottie, have you ever craved into a little white bear.

## COVETS CAMPBELL'S RECORD

Norman "Wizard" Smith, Australian speed king, who will shortly make an assault upon Capt. Malcolm Campbell's world land speed record of 245 miles an hour, driving a car now under construction in Sydney and with speed tests in New Zealand.

## Many Divorces in Canada Year 1929

Eight Hundred and Seventy-Five Divorces Granted in Canada in Year 1929

A total of 875 divorces was granted in Canada during 1930, according to a return issued by the Dominion Bureau of Statistics. Of this number, 247 were granted by the Dominion Parliament, and comprised marriage dissolutions in Ontario and Quebec. The remainder were decreed by the various courts of the other six provinces involved. No divorces were granted in Prince Edward Island, which province has had only one marriage dissolved in that fashion since confederation.

British Columbia headed the list for 1930 divorces, the figures in that Pacific Coast province being 255; Ontario had 207; Alberta, 151; Manitoba, 141; Saskatchewan, 82; Quebec, 40; New Brunswick, 27, and Nova Scotia, 19. This total of 875 was 99 more than the previous year, and was the largest in the country's history. Since 1913, a total of 7,758 divorces have been granted in the Dominion.

## Manitoba Mining Industry

Over \$62,000,000 Is Now Invested In The Industry

Hon. D. G. McKendle, Minister of the Department of Natural Resources, reports that the investment in Manitoba's mines' production for 1929 over the previous year, the total production amounting in value to \$3,423,525.

Capital invested in the Manitoba mining industry is now computed to be over \$62,000,000.

The year 1930 was the best yet in the mining history of Manitoba in the matter of advances toward mineral production. Mining expenditures that year were 15 per cent. over the previous year's figure of \$12,500,000.

## Railways and Air Routes

Joint Rail and Air Services May Be Future Development

Air developments, more particularly as they affect the operations of a large transcontinental transport system, are being closely watched by the Canadian Pacific Railway with a view to the inauguration of joint services, when the time is considered opportune. It was stated recently by E. W. Beatty, president of the Canadian Pacific Railway.

"If the development in air service, which is progressing satisfactorily, demands joint rail and air services, they will undoubtedly be provided by the Canadian railways," said Mr. Beatty.

## Stump In Watch Industry

The watch-making crisis in Switzerland appears to have been reached. July, 1930, was the poorest month in years, only 114,600 cases being turned out. But the heaviest decline has been in pocket watches and automobile clocks. The clocks, most of which in former years were exported to the United States, have nearly disappeared from the market.

An archaeologist states that until eighty years ago, almost all the known remains of ancient Babylon and Nineveh were in a little glass case in the British Museum.

It is predicted that cosmetics may eventually find their way into the manufacture of noiseless gears, insulating material, and similar products.

Poland's population has just been estimated at nearly 30,000,000.

## NO MORE ECZEMA

itching Ends Right Away  
The famous "Eczema" ointment is the only one of its kind. It is the only one that cures "Eczema" in all its forms. It is the only one that cures "Eczema" in all its forms. It is the only one that cures "Eczema" in all its forms.

## Palladium Medal

Wollaston Medal Of Geological Society Of London, Is Made From Rare Metal Mined In Canada.

The Geological Society of London's 101st Wollaston Medal was recently presented at Burlington House, London, England, to Dr. Arthur William Rogers, director of the Geological Survey of South Africa, according to word received by the International Nickel Company of Canada, Ltd.

Awarded annually by the Society with the object of promoting research concerning the mineral structure of the earth, the medal this year is unique in that it is made of palladium which is mined in Canada, instead of such other precious metals as gold or silver. Palladium, which is a non-tarnishable precious metal of the platinum group, resembling silver in color, was discovered by Dr. William Henry Wollaston, F.R.S., F.G.S., in 1803.

The metal was presented to the Society by the Mond Nickel Company, Ltd., who are important producers of that and other metals of the platinum group. In a speech at the presentation dinner, Mr. D. O. Evans, delegate director of the Mond Nickel Company, Ltd., said that progress had been made in the world's production of palladium since Wollaston's days.

The palladium used in the medal, he said, had been derived from the Company's vast resources in the nickel-copper ore regions of Ontario, these Canadian ores, he said, were worked primarily for their nickel content, palladium, platinum and other metals being a by-product. He said the International Nickel Company, of Canada, Ltd., of which Mond is a subsidiary, could now produce upwards of 100,000 ounces of palladium a year, which would represent a substantial proportion of the world's production of metal.

## New Radio Treatment

Professor Stiebeck, of the Vienna polytechnic, recently has been using three meter waves from a one-half kilowatt radio transmitter for the treatment of inflammation of the lungs. He claims to have had encouraging success.

## Smallest Working Locomotive

What is claimed to be the smallest working locomotive in the world, made by J. J. Langridge, of Riverdale, Iowa, Middlesex, is exhibited at the Wimbledon and District seventh annual exhibition at Wimbledon, England. The model, which runs by electricity, can be almost entirely covered by a postage stamp.

## SUNDAY SCHOOL LESSON MARCH 15

JESUS AMONG FRIENDS AND FOES

Golden Text: "Ye are my friends, if ye do the things which I command you."—John 15:14.

Lesson: Luke 10:13 to 11:54.

Devotional Reading: Psalm 86:1-7.

## Explanations and Comments

Martha's and Mary's Friendship For Jesus, 10:34-42—Jesus was a frequent guest at Bethany in the home of LAZARUS, Martha and Mary. On one occasion Mary was sitting at His feet and listening eagerly to His words, when Martha, troubled about the preparation of the meal, came and said impatiently to Jesus, "Lord, dost Thou not care that my sister did leave me to serve alone? Didst Thou therefore that she help me?" Can you not see how troubled she was, and how unjustly she felt that she was being treated? So intense was her feeling that she rebuked her sister in the presence of their Guest, and in asking Him if He did not care about her overwork, she rebuked Him.

Jesus tenderly repeated her name, "Martha, Martha," thus showing His care for her, and then gently chided her, "thou art anxious and troubled about many things; but one thing is needful." Morfat's translation reads, "Martha alone is necessary." Both sisters were now to sit at Jesus' feet (note the word "also," verse 39) and according to Morfat's translation we may assume that both helped and heard the master. But Mary returned, thinking the fare prepared adequate, Martha, on the other hand, wished to serve a more pretentious dinner—one of many dishes—in order to please the Lord. The whole of the story of Jesus' words to her, then, was to warn her against herself. He did not want her to turn her into a drudge. He desired her also to sit at His feet and learn.

"If you had seen Martha, you would frequently have said of her doing: 'She would do more if she did less!' The woman was overworked. The busiest mother will do amazingly well for herself if she will withdraw from the ardent demands of the domestic circle and have ten minutes with her Lord. But I have so much to do!" I know all about it, but you will do them better for the apparent work. Deep communion gives us the power of fine action. It conveys to the heart a calm assurance that God. The nerves are soothed and calmed and the soul is stilled.—J. H. Matthews.

"For Mary hath chosen the good part, which shall not be taken away from her." "Not yours in bustling about, Martha, but hers is the 'good part' of ministering not to my body but to My spirit's need for sympathy and understanding. It will not be taken from her now by My bidding to help you, and it is of such a character that she will never lose it. Mary's gift was not so much sympathy as the power to detect in those whom she met what was the main thing to be sympathized with."—George Matheson.

"Speak low to me, my Saviour, low and sweet. From out the hallelujah, sweet and low. Lull I should fear and fall, and miss Thee so. Who are not missed by any that entreat— Speak to me as to Mary at Thy feet."—Mrs. Browning.

Reindeer in Alaska now number more than 1,000,000 head.

## Has Freak Eyesight

Objects At One Range Magnified

One Hundred Times

The eyes of Alva Mason, 25, an electrician of Minn. Me., are so focused that objects within a distance of eight inches are magnified more than 100 times their actual proportions. For ordinary work Mason has to use glasses that de-magnify and another person looking through these spectacles might just so well be gazing through the wrong end of a telescope.

Objects more than eight inches from Mason's naked eyes appear blurred, but at a closer range he can even distinguish photograph records by the difference in impressions made in the discs. Removing his glasses, he can point with unfailing accuracy to the recorded anvil strokes in the "Anvil Chorus From 'Il Trovatore'."

Mason does not have to hear a record to determine whether or not a song was sung in a staccato or crooning manner. The sound groups appear to him as the track made by dragging a finger through soft mud seems to the ordinary naked eye.

Pores of the skin and the infinitesimal holes in newspaper are quite apparent to Mason when he discards his glasses necessary for the greater part of his work.

## Size Of Bee Colony

An interesting experiment has been under way for the past five years to determine the approximate field force of a normal colony of bees. During this period, thirteen calculations have been made by officers of the Department of Agriculture, the figure varying from 22,187 to 39,687, but only on two occasions did the number fall below 31,000. It is reckoned that approximately 5,000 bees weigh a pound.

Fruit acids, paradoxically, counteract the acid effects of certain foods in the diet.

51 Wellington St. W. TORONTO, ONT.

## BRANCH LINES FOR NORTHERN ONTARIO URGED

Toronto, Ont.—Launching of an immediate development programme in northwestern Ontario, was advocated in the Ontario legislature by Major-General D. M. Hogarth (Cons. Party). Extensive railway building operations in this country, he said, would open up immense resources to development.

Two north and south lines of railway should be built, he stated, one from the Head of the Lakes north to the Albany River, and one from Kenora north to the English River. They should then be connected by an east-to-west line and eventually linked up both with the Temiskaming and Northern Ontario Railway at Moose Factory, and with the Hudson Bay Railway at Churchill.

He urged the government to appoint a commission to investigate the possibilities of the northwestern part of the province with a view to building new railways. He stated that it mattered whether the railways were built by private enterprise or under public ownership. The people of the district wanted development and wanted communications.

Indication that government action would result from his suggestion came later from Premier George S. Henry. He said General Hogarth had made one of the most enlightened and constructive speeches on Northern Ontario he had heard, and stated the general's suggestion would receive the careful attention of the government.

## For Embargo On Corn

Resolution Favoring Embargo Against U.S. Corn Introduced in Manitoba Legislature

Winnipeg, Man.—Indirect notice that the government would oppose a resolution favoring an embargo on United States corn entering Canada was given in the legislature. Hon. R. A. Hoey, Minister of Agriculture, declared that a move would have been made in bettering the price of barley in the Dominion, and said he failed to see any other purpose the plan would serve.

Debate on the Import ban resolution moved by A. A. Walker, a conservative member for Turtle Mountain, drew W. R. Evans, Minister of Agriculture, into support of the proposal.

Canada, said Mr. Hoey, imported between 12,000,000 and 14,000,000 bushels of corn annually for use as a popular food and for livestock feeding. It could not be seriously suggested, he said, that an embargo on this United States product would put up the price of barley "a fraction of a cent."

It was not intended to come into Canada, there would be a considerably larger market for Canadian barley. Mr. Evans thought that "if any money were to be made from U.S. corn products cost been spent in Canada, it would have purchased the total quantity of barley Canada is carrying over from the last fiscal year," Mr. Evans asserted.

He would like to see Canadian barley used in the Canadian market. Mr. Evans said, and would favor a duty on U.S. corn.

## Plans Polar Flight

Grat Zepplin May Carry Scientist Over Polar Seas

New York.—The Grat Zepplin will make a polar expedition of exploration in July, if Dr. Hugo Eckener succeeds in a plan to finance the project. The genial commander of the big dirigible arrived here from Germany. The plan would proceed from Friedrichshafen to the Arctic by way of England, he said, and fly over Franz Josef Land and St. Nicholas Land with eight or nine scientists aboard.

## Europe Has Mortgage Bank

Basel, Switzerland.—An international mortgage bank capitalized at \$5,000,000 was created for the purpose of extending long-term credits to European nations in need of such financing. It will work in close cooperation with the International Bank for settlements.

## Air Mail Record

Toronto, Ont.—Shattering previous records by half an hour, a plane carrying the mails made the westbound 485-mile trip from Montreal to Toronto in two hours flat. It was piloted by V. J. "Shorty" Hutton.

W. N. U. 1259

## Naval Parity For Italy

Has Gained Practical Parity With France in Naval Construction  
Rome, Italy.—Italy gains practical parity of construction with France over the next five years under the terms of the British-France-Italian naval accord as disclosed unofficially here, and in 1936, when the accord expires, will be in a better position relative to France than she is today. The principle of parity which broke up the London conference no war Italy and which was considered is not settled by the new accord but is postponed until 1938.

Meantime naval construction programmes are put on a practical level and so harmonized as to guarantee each country against surprise and to permit accurate check on annual tonnage laid down. The annual programmes are reduced from more than 10,000 tons to an average between 5,000 and 7,000.

Italy made some sacrifices, the terms of the agreement show, but she believes they will not affect the national security and that they are balanced by sacrifices on the part of the French.

France will give France, in 1938, a superiority of 220,000 tons, but Italy discounts this, pointing out that the government will likely institute such a body. Belief in Ottawa is that the membership of the commission will comprise three persons, one representative of the farmers of the prairie provinces, a second representing the Winnipeg Grain Exchange, and a third sitting for the Dominion Government.

It could not be confirmed that the government had sought the services of Sir Joseph Stamp, international famous English economist. Hon. Robert W. Minister of Agriculture, however, declared that he had been in touch with someone in England, the identity of the individual not being disclosed. Circumstances surrounding the railway situation in England had caused the person indicated to forego the prospect of acting for the Dominion. It is believed, but not confirmed, that this individual was Sir Joseph Stamp.

One of the purposes of the commission would be to see whether the present system of trading in grain futures has, or is being improved, in the marketing of grain.

## Fire Destroys Mail 'Planes

Fleet of Seven Planes Lost in Disastrous Fire in Winnipeg

Winnipeg, Man.—A fleet of seven Western Canadian Airways' planes and a Fairchild cabin machine, privately owned, were lost in a fire that totally destroyed the company's huge hangar at Riverdale, and caused the causing damage estimated at about \$150,000. Much higher estimates were completely discounted by company officials.

Planes broke out following an explosion in the hangar. Company officials, meeting with Fire Commissioner Edward McGrath, were unable to determine what had caused the blast. More than a dozen mechanics and workers escaped from the building without injury, as the blaze quickly spread. No one was seriously injured, though minor injuries were reported having been suffered by fire-fighters. Three automobiles, standing close the structure, also were destroyed.

Witnesses of the outbreak believed the blast occurred in the gasoline tank of one of the planes. Everyone in the building hastily fled as the resulting flames crept along the gasoline tank of one machine. When the first Winnipeg fire brigade arrived, eight 'planes were in flames, several standing just outside the hangar. Firemen were hindered from doing effective work by lack of water pressure.

Two small Laird mail 'planes, delivered only a short time ago, were among the flame-wrecked debris, and the pride of the company's fleet, a large tri-motored Pinner cabin machine, also was destroyed.

Eight hundred gallons of gasoline, stored outside the building, failed to explode, though the tanks broke into flames shortly after the blast started.

## Russian Trade

Thinks Canada Foolish in Refusing To Trade With Soviets

Montreal, Que.—For Canada to refuse to do business with the Soviets because Russians have their own idea of government is as illogical as refusing to listen to Italian grand as because Mussolini is a dictator. In the view of A. J. Schuchert, widely-known labor party politician, the Canadian people are in a better position to trade with Russia than they are with the United States, and other countries tied on it.

Labour Leader To Visit Canada

Toronto, Ont.—A. C. Cook, secretary of the powerful Miners' Federation of Great Britain, will be a visitor in Canada late this year or early next. He will be coming to Raymond Smith of this city says.

## Slight Drop Reported In Wheat Shipments

Movement Slowed Up For Last Week In February

Winnipeg, Man.—Movement of Canadian wheat overseas, maintained at a rate better than 4,000,000 bushels weekly since the first of the year, slowed up the last week in February, and at the same time the drop in the visible supply was less than average. Exports for the week ending February 27, were given as 3,064,800 bushels in a report issued by E. A. Russell, statistician to the Dominion Board of Grain Commissioners.

Of the week's clearances, 1,054,119 bushels was shipped from Pacific ports in Canada.

Visible supply of Canadian wheat decreased during the week by 1,847,310 bushels and totalled 190,463,533 bushels.

## MARKETING OF WHEAT TO BE INVESTIGATED

Ottawa, Ont.—While no official announcement has yet been made by the government in connection with a royal commission to investigate wheat marketing, it is understood that the government will likely institute such a body. Belief in Ottawa is that the membership of the commission will comprise three persons, one representative of the farmers of the prairie provinces, a second representing the Winnipeg Grain Exchange, and a third sitting for the Dominion Government.

It could not be confirmed that the government had sought the services of Sir Joseph Stamp, international famous English economist. Hon. Robert W. Minister of Agriculture, however, declared that he had been in touch with someone in England, the identity of the individual not being disclosed. Circumstances surrounding the railway situation in England had caused the person indicated to forego the prospect of acting for the Dominion. It is believed, but not confirmed, that this individual was Sir Joseph Stamp.

One of the purposes of the commission would be to see whether the present system of trading in grain futures has, or is being improved, in the marketing of grain.

## Farm Loans

Applicants To Commence Work On Valuations On May First

Ottawa, Ont.—May 1 next, has been set as the date on which appraisers this season will begin the work of valuation on applications for loans to the Farm Loan Board.

This decision was made at a meeting of the Farm Loan Board, Premier R. B. Bennett, who is also minister of finance, presided.

Loans are made to applicants on farm lands and buildings at the rate of 6½ per cent. under the Farm Loan Act. When applications for loans are received by the board they are, if favorably looked upon, passed to appraisers for valuation.

## VISITS AMERICA

Grand Duke Alexander, of Russia, who is a claimant to the throne of the czars, has just arrived in America on a visit.

Grand Duke Alexander, of Russia, who is a claimant to the throne of the czars, has just arrived in America on a visit.

## Brydges Wins Dog Derby

Russek Was Second and Emil St. Godard Finished Third

The Pas, Man.—Sturdy Earl Brydges was acclaimed King of Western Canada dog mushers for his second year in succession.

Brydges, battling an icy trail, almost late of snow, and carrying four husky dogs on his sled, came home the winner of The Pas 260-mile non-stop derby, winning the Walter Gwynne trophy. His time was 26 hours, 30 minutes, 20 seconds. While far behind the record of "Shorty" Russek, established in 1924, when he finished in a little more than 23 hours, Brydges' time was remarkable for the Dominion. It is believed that he would have been able to make a better time had he not been so tired.

Earl plodded across the finishing line covered with perspiration and nearly exhausted from his struggle with the treacherous northland trail.

"Shorty" Russek was second, 10 minutes behind Brydges, and Emil St. Godard finished third, 28 hours, 4 minutes and 22 seconds.

## Pioneer Settler Dead

James Harvey Saw Service In Rebellion Of 1855

Vernon, B.C.—James Harvey, aged 88, who was the first settler at head, died at his home in Vernon, B.C., on Monday, Feb. 27, after a long illness.

In the rebellion of 1855, Mr. Harvey had three sons, one of whom was working near North Battleford, Sask., and he himself saw service at the Battle of Batoche. He came to Kelowna, B.C., in 1906, and at one time was vice-president of the Okanagan Fruit and Land Company. He resided at Kelowna until his wife's death, at which time he came here.

British Estate Duties  
London, England.—The British exchequer will benefit to the extent of nearly \$15,000,000 in the death duties of the estate of Sir David W. Ross, who died in 1924.

While the Nationalists have been admitted gained much by accepting the settlement, it is pointed out on the government side that Great Britain gains commensurate advantages.

The most important gain in this direction was the point wherein the Nationalists agreed to confine themselves at the next round-table conference to the specified scope of constitutional questions elucidated by the first round-table meeting in London, England.

This committee (Gandhi to the Nationalists) agreed to confine themselves at the next round-table conference to the specified scope of constitutional questions elucidated by the first round-table meeting in London, England.

## Making More Butter

Butter Supplies Now Almost Meeting Local Demand  
Vancouver, B.C.—Increased attention that is being given to dairying on the prairies is revealed in the fact that butter supplies from the three prairie provinces are almost meeting Vancouver's Canadian requirements.

Attention is drawn to this new condition by the relatively small imports of butter from Australia and New Zealand at the present time.

Last week the "Aurora" brought 76 boxes of butter to Vancouver from New Zealand, and 300 for Victoria, 3,642 from Australia for Victoria, and 311 from the Fiji Islands, a total of 4,779 boxes.

On February 28 of last year, the imports from the same sources were 12,515 boxes from New Zealand to Vancouver, and 1,495 from Australia, and 82 from the Fiji Islands, while Victoria had 3,260 from New Zealand, a total of 23,352 boxes.

Vancouver dealers report that Alberta supplies are meeting the requirements in Vancouver, and that most of the butter imported since November is still in storage. Under an agreement between the importer and the Canadian Government none of the Australian butter can be sold at a price below 25 cents a pound, and the civil disbursements are being reduced slightly under that figure.

## SETTLEMENT OF INDIAN QUESTION PEACE TRIUMPH

New Delhi, India.—When India awoke on the morning of March 4, it found peace on its doorstep.

Overtaken, Mahatma Gandhi, by the vision of a prophet, had led his invisible sleeping multitudes from the predicament of war to the peace of peace. He won the confidence of Viceroy Lord Irwin, who, less than a year ago, jailed the mystic agitator for challenging the authority of the British Empire, and an accord was reached which ended the year-long civil-disobedience movement.

Nationalist circles naturally regard the truce as a triumph for Gandhi's doctrine of non-violence which, as Mahatma Gandhi said, introduced a new technique into international revolution.

While the terms of the agreement have not been officially published, it is understood they are as follows:

1. Nationalists will abandon civil resistance.

2. Indians along the coast will be given the right to manufacture their own salt and thus will not have to purchase it from the government monopoly.

Non-payment of taxes will be required with certain reservations.

3. Nationalists will be permitted to do picketing within the normal laws of the country and will be permitted to conduct boycotts as long as they do not aim specifically at British goods—in other words, if their idea is to promote local trade and industry.

4. Nationalists who were imprisoned for civil disobedience activities will be given amnesty and all government repressive measures will be withdrawn.

5. Nationalists drop their demand for an investigation into alleged police brutality.

6. The government won from them consent to work for qualified dominion status in a second round-table conference.

While the Nationalists have been admitted gained much by accepting the settlement, it is pointed out on the government side that Great Britain gains commensurate advantages.

The most important gain in this direction was the point wherein the Nationalists agreed to confine themselves at the next round-table conference to the specified scope of constitutional questions elucidated by the first round-table meeting in London, England.

This committee (Gandhi to the Nationalists) agreed to confine themselves at the next round-table conference to the specified scope of constitutional questions elucidated by the first round-table meeting in London, England.

## AWARD GIVEN TO U. S. IN CLAIM AGAINST CANADA

Washington, D.C.—Award of \$250,000 to the United States against Canada for damages in the State of Washington caused by fumes from the smelter of the Consolidated Mining and Smelting Company of Trail, British Columbia, was recommended by the International Joint Commission in an unanimous report made public by the two governments.

The question has been one of extensive diplomatic correspondence and protests by the United States for a number of years. It was referred to the International Joint Commission in 1925 for investigation and decision. The damages were recommended after an extensive investigation and hearings on both sides of the border.

The commission also recommended that the United States be allowed to proceed "as expeditiously as may be reasonably possible" with works to reduce the amount and concentration of sulphur fumes to a point where no damage would be caused by their drifting into the United States.

A plan approved by the two governments, Canada would pay into the treasury the recommended damage for distal from claim.

Secretary of States Stimson, in commenting on the report, expressed gratification that it had been unanimous and praised the commission's efforts to solve the problem of joint arbitration methods to solve international problems.

## Awarded McKee Trophy

Squadron Leader J. H. Tudhope Is Winner For 1939

Ottawa, Ont.—Squadron Leader J. H. Tudhope, M.C., of the Royal Canadian Air Force, stationed in Ottawa, has been awarded the McKee Trophy for 1939. It was announced here by Hon. Donald Sutherland, Minister of National Defence. The trophy is awarded annually to the Canadian flyer who renders the most meritorious service in the advancement of aviation.

During 1939, Squadron Leader Tudhope was the pioneer of all aerobically trained flyers from the Atlantic to the Pacific.

In the first four months of the year, he flew an aerial survey of the Rocky Mountains, flying over 10,000 miles.

Squadron Leader Tudhope joined the Royal Flying Corps in 1916, and served in France with No. 40 Squadron. He was granted the Military Cross and bar for gallantry.

After the war, he joined the Canadian Air Force and is now superintendent of Airways in the civil aviation branch of the department of national defence.

## National Highway

Falling Revenue Will Not Permit Of Much Work Being Done This Year

Ottawa, Ont.—Federal finance will not permit an immediate large expenditure on the national highway was the conclusion reached by the department which waited on Prime Minister R. B. Bennett after he drew their attention to the growing expenditure, decreasing revenue, and inevitable deficit, the Ottawa correspondent of the Mail and Empire says.

The delegation suggested alternative routes be provided such as via Winnipeg, Saskatoon, Edmonton and Vancouver in the north, and via Winnipeg, Regina, Lethbridge, and Vancouver in the south.

The delegation suggested alternative routes be provided such as via Winnipeg, Saskatoon, Edmonton and Vancouver in the north, and via Winnipeg, Regina, Lethbridge, and Vancouver in the south.

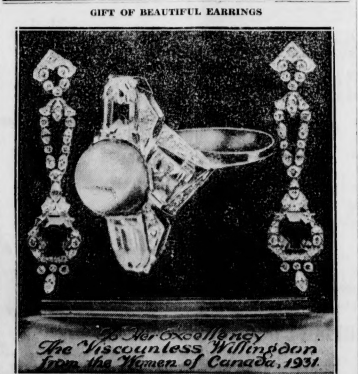

## Rich Mineral Deposits

Resources Of Northwest Territories Stressed At Mining Convention

Ottawa, Ont.—Canada's varied and immensely rich mineral deposits were stressed by the various speakers at the annual convention of the Canadian Institute of Mining and Metallurgy, held in the Canadian Hotel, during the past few days. The convention was held in the city of Ottawa, and was attended by a large number of mining men from all parts of the country.

Three speakers declared large mineral deposits in the Northwest Territories of the Arctic. Very little intensive work has been carried out, they said, but enough has been done to show the presence of extensive and valuable ore deposits.

More than 100,000 immigrants entered Argentina last year.

The Viscountess Willingdon from the Women of Canada, 1931.

## CHAMPION CHATTER

Vol. 4

Thursday, Mar. 12, 1931

No. 12

Published in the interest of the People of Champion and Farmers of this vicinity.  
GEO. L. DEPUÉ, Editor.

**Waiting for the Argument:** Motorist: What's all the crowd up there holding up traffic? Native: There's been a smashup.  
Motorist: Any body killed? Native: Not yet.

Some of my readers may remember a professor at one of our Canadian universities who was especially famous as the hero of many "absent-minded professor" stories. On one occasion he had purchased a new pair of trousers without consulting the arbiter of his domestic economy. That good lady, on entering the professor's room the next morning found his accustomed nearest garment lying upon the bed, and rushing to the phone, she called the dean of the college.

"Good Equipment Makes a Good Farmer Better."

## Local and General

O. McCumber's new residence is practically ready for occupation.

The long-expected opening of the Dominion parliament takes place (Thursday).

OL' ROX, the worlds most delicious cookie now can be had at Campbell's at 35c pound.

The Misses Holmes, Watt and Hartwig were among those who attended the hall anniversary from Vulcan.

Lee Taylor motored to Spokane recently, bringing Mrs. Taylor, who had been visiting there, back with him.

A. Watt has moved from the Hyndman residence in the subdivision to the rooms over the Canadian Bank of Commerce.

Mrs. G. M. Campbell accompanied Miss Rheta back to Calgary on Saturday. The latter had been at home a few days, ill with a cold.

A bus line between Lethbridge and Calgary is now operating through Champion and other towns on the Alder-rye branch.

C. Rhodes has secured a position at Coalhurst and will leave for that point shortly. It is understood his family will remain here for the present.

Mrs. H. N. Heal entertained at bridge last week in honor of Mrs. V. S. Jopling of Calgary. Mrs. H. C. Jopling won first honors and Mrs. G. L. Depue second.

Mr. and Mrs. Albert Hackett left for Yakima, Wash., on Saturday last, accompanied by Max Groves. Mr. Hackett goes on to a fruit farm in the Yakima section.

Mrs. J. D. McDougall, who was operated upon on March 4th, has made very satisfactory progress since that time and is well on the way to complete recovery.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist 224-8th Ave West, Calgary will make his monthly visit to Champion Friday, March 27th, at the Drug Store.

While it was still cold on Thursday morning, the sun came out brightly, and the absence of wind made a big difference in the feel of the weather. By all appearances the short cold snap when temperatures reached the below zero mark in the mornings is practically over.

about this business we learned from somebody else.

Lee and Mrs. Taylor have returned from a short trip to the old home in Washington.

A Champion rink consisting of F. J. Chapp, R. D. Forties, J. Taylor and U. S. Alexander, brought home the fountain pens from the Little Bow hospital, held at Vulcan on Monday.

We are glad to talk to you about anything in the farm implement line. If we weren't we wouldn't be in this business.

As the improvements to the Hotel Savoy diningroom near completion it is evident that a handsome room will result. The alterations have been quite extensive and completely alter appearances in a very satisfactory manner. Alex Rinaldi was in charge of the work.

Badminton Results  
At Reid Hill

Only eight points short, out of 342 points played, gave the local Badminton club a further assurance that in a few short weeks they will be as good as the best. The game was played at Reid Hill on Tuesday night. Mrs. Earl Ditto and Miss Archer were the ladies who went along and they certainly won their games with big margins, which helped the weaker sex scores, namely Messrs. Watts, Ditto, Starr, Stephenson, Campbell and Farris. Special mention must be made of Watts and Farris. These boys never lost a game, in fact, Watts sat on the floor several times but kept on playing and won his point.

Afternoon Tea  
And Bake Sale

A bake sale and afternoon tea will be held in the old drug store building on Saturday, April 4th, under the auspices of the Ladies' Aid. Mrs. F. F. Wise and Mrs. R. J. Cowell will be in charge of this Easter event for the Aid.

Landings of tuna in the commercial fisheries of Nova Scotia in 1930 amounted to nearly 267,000 pounds. These big fish are caught in Nova Scotia waters only, so far as Canada is concerned, and they are sometimes taken by sport fishermen with rod and line as well as by the nets of commercial fishermen.

## High School Notes

A meeting of the Literary Society was held on March 9. The main feature was the debate, "Resolved that India should self-government." The judges decided in favor of the negative side, which was upheld by Elsie McLean and Gretchen McNaughton. Max Caldwell played two pleasing numbers on the piano. The Light of the Lit. was read by the editor, Harry McNaughton. The meeting was closed by the singing of "Did I See the King."

In spite of the lack of practice during the last few weeks, the High

School hockey team has retained its old-time fighting spirit. The boys won a victory of 7-4 over the Vulcan team on Wednesday, March 11. This victory is revenge for their former defeat by the Vulcan team. Philip Basilio was the star of Champion team. He made four goals for the team. Bobby McCullough, Alex Latiff and Donald Campbell each made one goal. The boys are planning another game on Saturday.

MAMMOTH  
Auction Sale
